Index to *Surveying and Land Information Science*
Volume 63

Authors

Agrawal, Anurag. See Barnes et al. 2003. 63(4): 243-251.

Barnes, Grenville, Anurag Agrawal, Levent Genc, Balaji Ramachandran, Vijay Sivaraman, Bharath Pudi, Michael Binford, and Scot Smith. 2003. Developing a spatio-temporal cadastral database using county appraisal data from northern Florida. 63(4): 243-251.

Binford, Michael. 2003. See Barnes et al. 63(4): 243-251.

Chang, Yu Min. 2003. See Chen et al. 63(1): 13-19.

Chen, Chun Sung, Chuan Sheng Wang, and Yu Min Chang. 2003. A study on Precise GPS height using WVR and radiosonde sounding data. 63(1): 13-19.

Cone, Leslie. 2003. The National Integrated Land System. 63(4): 227-233.

Cowen, David J., and William J.Craig. 2003. A retrospective look at the need for a multipurpose cadastre. 63(4): 205-214.

Craig, Belle A., and Jerry L. Wahl. 2003. Cadastral survey accuracy standards. 63(2): 87-106.

Craig, William J. 2003. See Cowen and Craig. 63(4): 205-214.

El-Ghawaby, Mohamed. 2003. See Monsef et al. 63(1): 37-45.

Elithorp, James A., Jr. 2003. A student recruitment program for geomatics. 63(3): 173-181.

Genc, Levent, and Scot Smith. 2003. Forest cover change assessment for north central Florida using Landsat Thematic Mapper Data. 63(3): 149-154.

Genc, Levent. 2003. See See Barnes et al. 63(4): 243-251.

Ghilani, Charles D. 2003. Statistics and adjustments explained. Part 1: Basic concepts. 63(2): 73-76.

Ghilani, Charles D. 2003. Statistics and adjustments explained. Part 2: Sample sets and reliability. 63(3): 141-147.

Greenfeld, Joshua S. 2003. How long must we wait? The duration of GPS observations for short baseline measurements. 63(2): 77-86.

Greulich, Gunther. 2003. The education challenge. 63(2): 117-121.

Hartzell, Preston, and Wesley Parks. 2003. U.S. and Pennsylvania law of monuments as evidence. 63(3): 169-172.

Hintz, Raymond J. 2003. Using positional tolerance in simplifying GPS control survey quality requirements. 63(1): 21-25.

Hintz, Raymond J. 2003. See Wurm and Hintz. 63(1): 55-61.

Hixson, R. Lee. 2003. Creating a national Standard Record of Survey. 63(2): 123-128.

Jeffress, Gary A. The value of cadastral surveying to efficient land administration. 63(4): 253-258.

Kirkpatrick, Stewart. 2003. See Stevens and Kirkpatrick. 63(4): 259-263.

Lembo, Arthur J., Thomas D. O'Rourke, and Barbara C. Moses. 2003. Coordinate improvement of vector GIS data using rubbersheeting methods. 63(1): 47-54.

Lembo, Arthur J., Jr., and Thomas D. O'Rourke. 2003. Software for the user interface of coordinate rubbersheeting in vector-based geographic information systems. 63(3): 155-160.

Li, Rongzing, and Fei Ma. 2003. Geometric constraints in feature extraction from aerial imagery. 63(2): 107-115.

Lyle, Stacey D. 2003. New approach in using eRTK-GPS for direct georeferencing of aerial images in a GIS application. 63(3): 161-168.

Ma, Fei. 2003. See Li and Ma. 63(2): 107-115.

Monsef, Hesham Abd-El, Scot E. Smith, and Mohamed El-Ghawaby. 2003. Development of a geographic information system for sustain-

able development planning in southern Sinai, Egypt. 63(1): 37-45.
Moses, Barbara C. 2003. See Lembo et al. 63(1): 47-54.
O'Rourke, Thomas D. 2003. See Lembo et al. 63(1): 47-54.
O'Rourke, Thomas D. 2003. See Lembo and O'Rourke. 63(3): 155-160.
Parks, Wesley. 2003. See Hartzell and Parks. 63(3): 169-172.
Pudi, Bharath. 2003. See Barnes et al. 63(4): 243-251.
Ramachandran, Balaji. 2003. See Barnes et al. 63(4): 243-251.
Shih, Tian-Yuan, Young-Chyi Chiu, Hong-Yang Shih. 2003. On the quality of DCW Hypsographic Data: A study for Taiwan. 63(1): 27-35.
Sivaraman, Vijay. 2003. See Barnes et al. 63(4): 243-251.
Smith, Scot. 2003. See Monsef et al. 63(1): 37-45.
Smith, Scot.2003. See Genc and Smith. 63(3): 149-154.
Smith, Scot. 2003. See Barnes et al. 63(4): 243-251.
Snay, Richard A. 2003. Introducing two spatial reference frames for regions of the Pacific Ocean. 63(1): 5-12.
Stage, David.2003. An assessment of parcel data in the United States. 63(4): 235-241.
Stevens, Robert, and Stewart Kirkpatrick. 2003. Cost–benefit analysis of Montana Cadastral Mapping Project website. 63(4): 259-263.
von Meyer, Nancy. 2003. Implementing the FGDC Cadastral Standard in ArcGIS. 63(4): 215-226.
Wahl, Jerry L. 2003. See Craig and Wahl. 63(2): 87-106.
Wang, Chuan Sheng. 2003. See Chen et al. 63(1): 13-19.
Wurm, Kurt B., and Raymond J. Hintz. 2003. Use of source identification in the optimization of a measurement-based land information system. 63(1): 55-61.

Articles

A retrospective look at the need for a multipurpose cadastre. Cowen, David J., and William J.Craig. 2003. 63(4): 205-214.
A student recruitment program for geomatics. Elithorp, James A., Jr. 2003. 63(3): 173-181.
A study on Precise GPS height using WVR and radiosonde sounding data. Chen, Chun Sung, Chuan Sheng Wang, and Yu Min Chang. 2003. 63(1): 13-19.
An assessment of parcel data in the United States. Stage, David. 2003. 63(4): 235-241.
Cadastral survey accuracy standards. Craig, Belle A., and Jerry L. Wahl. 2003. 63(2): 87-106.
Coordinate improvement of vector GIS data using rubbersheeting methods. Lembo, Arthur J., Thomas D. O'Rourke, and Barbara C. Moses. 2003. 63(1): 47-54.
Cost–benefit analysis of Montana Cadastral Mapping Project website. Stevens, Robert, and Stewart Kirkpatrick. 2003. 63(4): 259-263.
Creating a national Standard Record of Survey. Hixson, R. Lee. 2003. 63(2): 123-128.
Developing a spatio-temporal cadastral database using county appraisal data from northern Florida. Barnes, Grenville, Anurag Agrawal, Levent Genc, Balaji Ramachandran, Vijay Sivaraman, Bharath Pudi, Michael Binford, and Scot Smith. 2003. 63(4): 243-251.
Development of a geographic information system for sustainable development planning in southern Sinai, Egypt. Monsef, Hesham Abd-El, Scot E. Smith, and Mohamed El-Ghawaby. 2003. 63(1): 37-45.
Forest cover change assessment for north central Florida using Landsat Thematic Mapper Data. Genc, Levent, and Scot Smith. 2003. 63(3): 149-154.
Geometric constraints in feature extraction from aerial imagery. Li, Rongzing, and Fei Ma. 2003. 63(2): 107-115.
How long must we wait? The duration of GPS observations for short baseline measurements. Greenfeld, Joshua S. 2003. 63(2): 77-86.
Implementing the FGDC Cadastral Standard in ArcGIS. von Meyer, Nancy. 2003. 63(4): 215-226.
Introducing two spatial reference frames for regions of the Pacific Ocean. Snay, Richard A. 2003. 63(1): 5-12.
New approach in using eRTK-GPS for direct georeferencing of aerial images in a GIS application. Lyle, Stacey D. 2003. 63(3): 161-168.
On the quality of DCW Hypsographic Data: A study for Taiwan. Shih, Tian-Yuan, Young-Chyi Chiu, Hong-Yang Shih. 2003. 63(1): 27-35.
Software for the user interface of coordinate rubbersheeting in vector-based geographic information systems. Lembo, Arthur J., Jr., and Thomas D. O'Rourke. 2003. 63(3): 155-160.
Statistics and adjustments explained. Part 1: Basic concepts. Ghilani, Charles D. 2003. 63(2): 73-76.

Statistics and adjustments explained. Part 2: Sample sets and reliability. Ghilani, Charles D. 2003. 63(3): 141-147.

The education challenge. Greulich, Gunther. 2003. 63(2): 117-121.

The National Integrated Land System. Cone, Leslie. 2003.63(4): 227-233.

The value of cadastral surveying to efficient land administration. Jeffress, Gary A. 2003. 63(4): 253-258.

U.S. and Pennsylvania law of monuments as evidence. Hartzell, Preston, and Wesley Parks. 2003. 63(3): 169-172.

Use of source identification in the optimization of a measurement-based land information system. Wurm, Kurt B., and Raymond J. Hintz. 2003. 63(1): 55-61.

Using positional tolerance in simplifying GPS control survey quality requirements. Hintz, Raymond J. 2003. 63(1): 21-25.

Book Reviews

Evidence and procedures for boundary location, 4th edititon, by Walter G. Robillard, Donald A. Wilson, and Curtis M. Brown. Reviewed by Bryan Catlin, L.S. 2003. 63(3):183.

Measuring America: How an untamed wilderness shaped the United States and fulfilled the promise of democracy, by Andro Linklater. Reviewed by Gerry Curtis, PLS. 2003. 63(3): 184-185.

Letters to the Editor

Re: Lee Hixson, "Creating a national Standard Record of Survey," by Robert W. Foster, PE, PLS, and Gunther Greulich, PLS, PE. 2003. 63(3): 197.

Response: R. Lee Hixson to Gunther Greulich. 2003. 63(3): 198.

Re: Gunther Greulich, "The education challenge, Response by Joseph M. McNichols, PLS. 2003. 63(4): 265-268.
